COLBY TO FILL VACANCY IN CABINET

New York Attorney Succeeds Robert Lansing as Secretary of State—Choice Causes Sensation.

Washington, Feb. 25.—President Wilson again upset the expectations of official and political Washington today by naming Bainbridge Colby, a New York attorney, who left the republican party with Theodore Roosevelt in 1912, as secretary of state.

The selection caused scarcely less of a sensation than the dismissal of Robert Lansing from the state portfolio two weeks ago, and was received with such undisguised surprise in the senate, where the president's choice must be approved before Mr. Colby can take up the duties of office, that none of the leaders cared to predict when confirmation might be voted.

NEW HOME FOR THE MONETT TIMES

Contract has been Let for Hollow Tile And Stucco Structure on Lot North of Present Quarters.

The Monett Times is to have a new home. The contract was let, Wednesday to J. G. Brumer for the construction of the building and work will begin immediately. Bert Robbins is the architect.

The building is to be 25x70 feet, constructed of hollow tile and stucco, with brick front. It will be built on the lot north of the present quarters on Fifth street.

The front office will be separated from the work room by a glass partition. In the press room concrete bases will be used for all the machinery.

A basement under the rear of the building will be used for furnace room and for the storing of surplus stock.

The building as planned will be well lighted and ventilated and will be built with a view to convenience and comfort.

The Times quarters have long been inadequate. The late D. A. Peters had plans drawn for a new building, which he would have constructed had he lived a few more months. His death and then the uncertainty of business during the war postponed the building of the office.

Since the war is over and business has become more settled, The Times is enjoying the greatest business in its history and to keep pace with the requirements a larger and better building is a necessity.

Teach Your Children To Save

Get one of these miniature Liberty Bell to drop your pin money in at home—it counts fast towards success

Central State Bank

Your children will learn more of the value of money through having a bank account than by any other means.

It encourages them to see the amount increase, and at 4% interest compounded semi-annually it doesn't take long to have large sums.

Why not start an account for them now—the ultimate benefits will be inestimable. One dollar is sufficient to open a Term Savings Account.

Accumulate Money Safely

HOW to accumulate money can be explained in a few words. Save money now and the money that you save will double in buying power. In ten years, you will have much permanent wealth from the increasing buying power of your money. Many people are going to be well-to-do by this means. Will you have a share in this wealth? Suppose you accumulate \$1,000.00, \$2,000.00 or \$5,000.00 during this period of high prices, in ten years your money will have a purchasing power of more than \$2,000.00, \$4,000.00 or \$10,000.00.

Proof! Musical Proof!

—Edison dared
—Pittsburgh heard
—Pittsburgh believed

Could it be true that even Edison had produced an instrument which sang so perfectly that its singing could not be detected from that of living artists? The music lovers of Pittsburgh doubted, but they were willing to be convinced.

On September 30th, 1919, 2600 Pittsburgh musicians and music lovers assembled in Carnegie Hall. Marie Rappold and Mario Laurenti of the Metropolitan Opera Company sang in comparison with the Re-Creation of their voices by this new phonograph.

The leading Pittsburgh newspapers were represented at this test.

The next day the Pittsburgh Leader said: "The tones which came from the New Edison Phonograph matched those from the living artist so perfectly it was impossible to detect any difference."

This from the Pittsburgh Dispatch—"The writer was pretty sure about it until the lights were turned on and it was discovered that Mme. Rappold was not on the stage at all and that the New Edison alone had been heard."

From the Pittsburgh Sun: The audience heard not one Mme. Rappold and one Mr. Laurenti, but two, the phenomenon being accomplished by means of a cabinet on the stage beside the performers that matched their performance, note for note and tone for tone."

The NEW EDISON "The Phonograph with a Soul"

is the only instrument that can sustain the test of direct comparison with living artists. It gives you all that the ear can give you of the world's greatest artists. It is the phonograph supreme. It has no rival.

Come to our store. Let us show you an exact dupli-

cate of the instrument used at Carnegie Hall, Pittsburgh.

We guarantee this instrument to be equal in tonal quality and realism to the instrument used at Pittsburgh, and we also guarantee it to be capable of sustaining the same test.
